

NHS claiming regulations

SWANSEA | Friday 20 April 2018

Overview

Understand the pitfalls and controls and explore the 'grey' areas of the NHS regulations with the use of case studies and discussions with experts.

The NHS claiming regulations are notoriously difficult to interpret. Misunderstanding of these regulations can have serious consequences, leading to risk of major financial losses and possible referral to the GDC.

This interactive one-day course will offer formal training to practitioners who are new to the NHS system and those who require an update with the current system (introduced in 2006).

Learning objectives

- Be familiar with the relevant NHS bodies administering and monitoring NHS dentistry
- Understand the legislation behind NHS treatments and claims
- Know how legislation is enforced relating to NHS/private boundaries and submission of forms and data
- Understand the key legal terminology and important definitions within NHS regulations and how these are interpreted
- Understand the pitfalls and controls around NHS regulations
- Know how dentists are monitored by use of data derived from FP17s
- Understand the Dental Assurance Framework, '28 day' investigations and the 'Powys' judgement
- Recognise the importance of full and accurate clinical and up-to-date record keeping.

Speakers

Richard Birkin

Head of Advice Liaison and Development,
BDA

Len D'Cruz
